Sania.aslam2514@gmail.com

Aarhus, Denmark

## Education

2025

### HackYourFuture Denmark

Learning web development fundamentals through hands-on projects, teamwork, and real-world coding exercises

2025

### ReDI School of Digital Integration, Denmark.

Studied Python fundamentals, data handling (CSV/JSON), and built a Budget Planning System as a final project.

2017 – 2019

### Masters in English

Punjab University, Lahore, Pakistan |

Registered with Higher Education Commission (HEC), Pakistan

2015–2017

### Bachelor of Science

Punjab University, Lahore, Pakistan  
Major Subjects: Computer Studies,

Applied Psychology

Registered with Higher Education Commission (HEC), Pakistan

## Language

- **English: Full Professional Proficiency**
- **Danish: Beginner**

## Professional summary

Aspiring Software Developer with experience in Python and practical training from ReDI School of Digital Integration and ongoing training from HackYourFuture Denmark.

Currently developing programming and problem-solving skills through real projects, freeCodeCamp challenges, and LeetCode practice.

Curious, adaptable, and eager to contribute to collaborative software development environments.

## TECHNICAL SKILLS

Python · HTML · CSS · JavaScript (beginner) · VS Code · Data handling (CSV/JSON) · Basic debugging · Problem solving (LeetCode)

## PROJECTS

### Budget Planning System — ReDI School (Python)

- CLI tool to add/delete transactions, categorize expenses/income, and persist data to JSON/CSV.
- Implemented input validation, error handling, and unit tests for core modules.
- Repo contains README, usage examples and sample data.
- Tech: Python 3.x, argparse, JSON/CSV, unittest/pytest, Git.

### LeetCode Practice & GitHub (leetcode75)

- Solved and documented 30+ algorithm problems (arrays, strings, recursion, two-pointers) and tracked progress in leetcode75.
- Include complexity analysis and problem notes in each solution.
- Tech: Python, Git, Markdown.

### FreeCodeCamp Responsive Web Design (HTML, CSS)

- Completed multiple mini-projects (Cat Photo App, Café Menu, Survey Form, etc.).
- Learned semantic HTML, responsive layouts, and CSS styling fundamentals.
- Built clean, user-friendly page structures and practiced visual design basics.

## RELEVANT EXPERIENCE – TRANSFERABLE

- Office Coordinator / Student Engagement — The Educators, Pakistan
- Managed event coordination, reporting and Excel-based records; liaised between students and staff; supported small automation tasks and documentation.
